Subject: Invitation to National Seminar on Recent Advancements in Wireless Communication

Dear NSIT Members,

We are excited to announce the organization of a National Seminar on "Recent Advancements in Wireless Communication." The event aims to bring together experts, researchers, and enthusiasts in the field to discuss and explore the latest developments, challenges, and opportunities in wireless communication technologies.

Date: [13-14 September, 2019]
Time: [9:30 AM - 4:00 PM]
Venue: [NSIT Campus]

Agenda:

- Keynote addresses by renowned experts
- Technical sessions on emerging trends
- Panel discussions on challenges and solutions
- Networking opportunities and poster presentation for participants

We invite you to participate and contribute to this informative event. Your presence will enhance the knowledge exchange and foster collaboration within the wireless communication community.

Please register by [10th September 2019] to secure your spot.

For more information and registration details, Contact Seminar Coordinators:

Mr. Vishal choudhary: Assistant Professor, ECE
Miss. Neha Chauhan: Assistant Professor, ECE

We look forward to your active participation in making this National Seminar a resounding success.

Best Regards,

Proposal: Two Day National Seminar

On

Recent Advancement in Wireless Communication

10/12/2023 09:12, 2024, 13:18

Proposed Seminar Topic:

Recent Advancement in Wireless Communication

Overview of the seminar:

Recent Advancement in Wireless Communication refers to the application of Information and Communication Technologies (ICT). It aims to help in international development by bridging the digital divide and providing equitable access to technologies. RAWC is grounded in the notions of "development", "growth", "progress" and "globalization" and is often interpreted as the use of technology to deliver a greater good. RAWC draws on theories and frameworks from many disciplines, development studies, and library, information science, communication system, signal processing, Antenna & Communication System.

Objectives of the seminar

This Seminar has been specially designed for the students, researchers, teachers and Industry personnel to provide them with an introductory yet exhaustive knowledge in the field of Communication system. It is expected that the seminar will help in enabling the participants to contribute to the academic research as well as R&D units of the Communication Industry.

Topics to be covered

- Wireless Communication
- Cognitive Radio
- Antenna
- Signal Processing

Proposed date/Month: 13th & 14th September, 2019 (9:30 AM to 5:00 PM)

Number of Days: 02

Who should attend: This national seminar is for students pursuing B.Tech. in Electronics & Communication, Computer, Electrical, Instrumentation, or equivalent backgrounds. The seminar also welcomes research scholars and faculty members of the colleges.

Tentative list of expert:

1. Resource persons from academia

Proposed name of Guest of honour and Keynote Speakers:

1. Prof (Dr.) Asok De: (Ex-Director NIT Patna & NIT Durgapur) Professor, Delhi Technical University.
2. Dr. Sumit J. Darak: Indraprastha Institute of Information Technology (IIIT) Delhi
3. Dr. Preetam Kumar: Professor, Indian Institute of Technology (IIT) Patna
4. Dr. Jayanta Ghosh: Assistant Professor, National Institute of Technology, Patna
5. Prof. M.P Tripathi: Department of Electronics & Electrical communication Engineering, NSIT Bihta, Senior member, IEEE, USA, & Life member, IE, India

Chief guest:

Prof. Pushpak Bhattacharyya: Director, Indian Institute of Technology (IIT) Patna

Distinguished Guest:

1. Prof. (Dr.) A. K. Nayak, National Vice-President, Computer Society of India.

About NSIT, Bihita, Patna

Netaji Subhas Institute of Technology, Bihita, Patna is a premier and prestigious private Engineering institute in the state of Bihar. It is approved by AICTE, New Delhi and recognized by the Department of Science and Technology, Government of Bihar, affiliated to Aryabhatta Knowledge University, Patna and State Board of Technical Education, Patna. The institution is ISO 9001:2008 Certified. NSIT has the huge infrastructure of approximately 4 lakh sq. ft of land at **Amhara, Bihita, Patna**. It imparts 4 years B.Tech. courses in ECE, EE, CSE, ME & CE.

Introduction

Recent advancement in Wireless Communication (RAWC) refers to the application of Information and Communication Technologies (ICT). It aims to help in the abundance of standards today is the result of a desire in the industry to support new applications, with each standard custom-tailored to a specific operating environment and spectrum. It is not hard to envision that wireless coverage will be pervasive in the future and will support a variety of applications that are undreamed of today. RAWC draws on theories and frameworks from many disciplines, including signal processing, Antenna & Communication System. This seminar has been specially designed for the students, researchers and Industry personnel to provide them with an introductory yet exhaustive knowledge in the field of Wireless Communication System. This national seminar is for students pursuing B.Tech. in Electronics, Computer, Electrical, Instrumentation, or equivalent backgrounds. Dear Sir,

At the outset I wish to submit that **Netaji Subhas Institute of Technology** is a decade old Prestigious Educational organization in North-East India located at Bihta, Patna, where imparting Quality education is the area of main focus. Apart from regular curriculum we also provide opportunity and support to the students in developing their innovative talents.

To lay emphasis on value addition of their Technical Capabilities we have been organizing various events like National Seminars / Workshops, Guest/Expert Lectures etc, where in eminent academicians/ Industry related experienced personalities of International repute have participated.

In this trail we are going to organize a **National Seminar** which detail is as below:

- **Nature of Activity: National Seminar**
- **Title / Topic: Recent Advancements in Wireless Communication**
- **Venue: NSIT Campus, Bihta, patna**
- **Dates: 13th – 14th September, 2019**
- **Contact Person: Mr. Rajani Ranjan (9931214281)**

As your contribution in the area of your expertise is well known, we sincerely desire and request you to please spare time as Resource Person for this program and share your knowledge wisdom & experience on a topic related to above Title with the students.

Please note you being an honored guest we shall be making all arrangements for you including travel

ABOUT DEPARTMENT OF EEE

The Department of EEE has a team of well qualified, experienced and dedicated faculty members with rich academic, industrial and research background. The department is fully equipped with modern electronics equipment systems with latest software. . The EEE has the intake of 120 students and approved by AICTE and affiliated to AKU, Patna

DEPARTMENT VISION

To produce Electrical Engineers with energetic well rounded personalities flexible to cope escalating demands of budding technologies concerning analytical and practical skills.

DEPARTMENT MISSION

To extend the department as a prominent academic centre of learning in the discipline of electrical engineering.

To set up research and development hub of status so as to promote active participation with industry by staff and students to take on practical problems of industry and to provide feasible solutions.

To develop simple, suitable technologies, this will be helpful in the up-liftment of rural society.

OBJECTIVE

This is a basic course for designing of PCB using software. PCB (Printed Circuit Board) designing is an integral part of each electronics products and this program is designed to make students capable to design their own projects PCB up to industrial grade.

WORKSHOP CONTENTS

- ❖ Introductions to PCB Software
- ❖ Introductions to ALTIUM Designer
- ❖ Schematics Design
- ❖ Selecting Components and Creating Libraries.
- ❖ Footprints, 3D Models and Starting a New PCB
- ❖ Variants & BOMs
- ❖ Checking Libraries and Schematics
- ❖ Create a PCB Layout
- ❖ Generating output documentation

Summary:

नेताजी सुभाष इंस्टीट्यूट ऑफ टेक्नोलॉजी के मैकेनिकल के छात्रों ने एक ऐसा मशीन डिजाइन किया है जो फसल काटने के समय उसे जड़ से उखाड़ देगा। अभी तक हार्वेस्टिंग के दौरान धान की फसल काटने के बाद खेतों में पराली बच जाता है जिसे किसान जला देते हैं। इससे प्रदूषण होता है और खेत की ऊर्वरा क्षमता भी प्रभावित होती है। इस यंत्र को डिजाइन करनेवाले हैं सौरभ, अंकित, पुष्पंजय और महफूज। इन छात्रों ने पिछले दिनों संस्थान में हुए एक दिवसीय सेमिनार में अपने मशीन की प्रस्तुति दी और प्रथम पुरस्कार जीता।

सेमिनार का विषय था, 'एप्लीकेशन्स ऑफ इंजीनियरिंग इन बायोमेडिकल एंड एग्रीकल्चर।' इस सेमिनार में बायो मेडिकल एंड कृषि क्षेत्र की सहायता करनेवाले इंजीनियरिंग पर चर्चा हुई। सेमिनार में संस्थान में छात्र-छात्राओं के 16 ग्रुप भाग लिया और बायो मेडिकल और कृषि क्षेत्र को सहायता करनेवाले इंजीनियरिंग पर प्रस्तुती दी। दूसरा स्थान पानेवाले छात्रों की टीम ने कृषि से संबंधित एप्प बेस्ड डिजाइन प्रदर्शित किया। इस टीम में मैकेनिकल और दूसरे विभाग के छात्र थे। दूसरा स्थान पाने वाली टीम में आदित्य, रवि और अंकित शामिल थे। तीसरा स्थान कंप्यूटर साइंस के विद्यार्थियों ने हासिल किया। इन छात्रों ने प्रस्तुती के माध्यम से बताया कि मेडिकल इंडस्ट्री में इंजीनियरिंग के क्या-क्या एप्लीकेशन है। उन्होंने उदाहरण स्वरूप 'एमआरआई' के बारे में बताया। सेमिनार में एनएसआईटी के ही पुष्पम सिन्हा ने लेक्चर भी दिया। जिसमें उन्होंने एमआरआई के बारे में बताया। उन्होंने बताया कि कैंसर जैसे रोग से लड़ने में क्या-क्या इंजीनियरिंग एप्लीकेशन हैं। सेमिनार में डीन एकेडमिक अनिकेत दत्त भी मौजूद थे। प्रस्तुती देने वाले विद्यार्थियों को एनएसआईटी के रजिस्ट्रार कृष्ण मुरारी ने बधाई दी। उन्होंने कहा कि ऐसे डिजाइन को धरातल पर लाना चाहिए ताकि देश की एक बड़ी समस्या का समाधान हो सके।
