## **About the Institute**

Netaji Subhas Institute of Technology established in 2007, with first batch started in 2008 has its magnificent campus at Amhara in the district of Patna, Bihar, The nearest railway station is Bihta about 2 kilometres from the institute campus and about 25 KM from Patna A railway junction the state capital and major business and Educational hub of the state. Bihta is the industrial hub and blessings nerve centre of the entire state of Bihar. NSIT, A Degree level Engineering Institute has become a "An effective source of Technocrats to the nation". with its unique infrastructural facilities of 4,00,000 Sq.Ft. of built up area on approximately 18 acres of green lustre land at Amhara, Bihta, Patna, Ambience at the campus serve and Ashram like. The college offers 4 yaers B.Tech courses in CSE, ECE, EEE, ME and CE.

## **About the Department**

The Department of Civil Engineering was established in the year 2008 and affiliated to Bihar Engineering university, Patna , and has grown over the years into one of the finest Department of training in the field of Civil Engineering. The laboratories are equipped with excellent and advanced equipment and provide all required facilities for advanced research in specific fields of Civil Engineering, like Geotechnical Engineering, Material Testing and Evaluation , Transportation Engineering etc.

## **Application of Geographical Information System (GIS) in Civil Engineering**

**Date: 14<sup>th</sup> June to 18<sup>th</sup> June, 2021**

**Organized by:  
Department of Civil Engineering  
NSIT Bihta Patna**

### **About the Workshop**

Geographic Information System (GIS) technology has predominantly changed how our world is analyzed and modeled. Be it small businesses, multinational companies, agriculture-based companies, educational institutions, or maps guiding a lost individual- GIS finds application in many areas. The rapid growth rate of data poses the huge challenge to its interpretation. GIS provides an easy and more efficient way to interpret geospatial data – to create a topographic map with elevation, angles and other features. This workshop exposes the participants to the concepts and applications of GIS in use for multiple disciplines. Participants will learn to create, edit, visualize, and analyze geospatial information and apply this learning to work on a vast range of projects where GIS technology is used.

### **COURSE CONTENTS**

#### **Lecture Session**

- Geographic Information System
- GIS Data Models and Data Acquisition
- Coordinate System and Map Projections
- Brief Introduction to GPS and Remote sensing

#### **Practical Session**

- Making a Topographic map
- Working with Attributes
- Geo-referencing and Digitization
- Case Study on Industrial Project

### **Vision of Department**

To become a premier Civil Engineering Department offering excellent engineering education in design methods and advanced technologies to the students, to pursue research in thrust areas and to offer professional services to the society.

### **Mission of Department**

The Department is committed to develop competent professionals by offering need based curriculum in Civil Engineering areas, promoting research and innovation to prepare the students for higher study, life-long learning and societal responsibility. The department is also committed to provide good learning environment to develop professional ethics and skills in our students and to provide engineering services to the society.

### **Resource Persons**

1. **Dr. Om Prakash (IITP CED Asst. professor)**
2. **Dr. Vishal Deshpande (IITP CED Asst. professor)**
3. **Dr. Ramakar Jha (NITP CED Professor)**

### **REGISTRATION**

This workshop is open to the faculty members of AICTE/ UGC approved Engineering Institutes/ Universities/ R&D Labs/ Industry person/ Ph.D. scholars/ postgraduate and under graduate students interested to know about the current status, scope, and challenges about advancements in manufacturing.

**The participation fees Rs 750/- only**

# Application of Geographical Information System (GIS)

## Overview of seminar:-

Basics of Remote Sensing, Global Navigation Satellite System, Geographic Information System and Applications of Geospatial technology. The syllabus and the lecture content are modified every year by the faculty based on the feedback received and the emerging trends in the technology.

## Objective of seminar:-

The course includes principles of GIS technology with an overview of GIS, Geographic Phenomena, Data Inputting and Editing in GIS, GIS Data Models, GIS System Architecture, Geographic Data Standards and Policies, Topology and Spatial Relationship, Spatial Data Analysis, Spatial Data Quality, Spatial Data Errors, Map Projection and Advanced Geospatial Modelling. The free and open source software will be used as a platform for demonstrations and development.

### ABOUT DEPARTMENT OF ECE

The Department of ECE has a team of well qualified, experienced and dedicated faculty members with rich academic, industrial and research background. The department is fully equipped with modern electronics equipment systems with latest software. The ECE has the intake of 60 students and approved by AICTE and affiliated to AKU, Patna

### DEPARTMENT VISION

The Vision of ECE department is to become pioneer in higher learning and research to produce creative solution to social needs & developing graduate engineers with the skills, knowledge and imagination that will help to shape our world

### DEPARTMENT MISSION

- To provide excellence in education, research in the domain of Electronics and Communication Engineering.
- To provide quality and contemporary education in the domain of Electronics & Communication Engineering through periodically updated curriculum, best of breed laboratory facilities, collaborative ventures with the industries and effective teaching learning process and to make the students entrepreneur and employable.

### OBJECTIVE

The aim of this workshop is to explore the state-of-art technologies in the area of Internet of Things (IoT) through a series of lectures delivered by eminent persons working in this field and to provide some hands on experiences in setting up IoT platform with open source software.

### WORKSHOP CONTENTS

- Introduction to the Internet of Things
- The Basics of Sensors & Actuators
- Basic IOT Architecture
- The IOT Platforms Available
- Arduino Programming
- Interfacing sensors with Arduino
- Embedded System Processors
