Annual e-governance Report 2019-20

This report outlines the implementation of e-governance solutions in the college administration to streamline various tasks, improves communications, and provide better services to the students, faculty and staff.

Administration:

The academist software helps administrators manage day to day operations, track resources, monitor staff activities, handle communication, and ensure smooth functioning across different departments within the college.

Students Admission and support:

The academist admission software facilitates the admission process, handling students applications, document verification, application status tracking and generating reports on admission statistics.

Examination

The academist examination software automates various examination-related tasks, such as exam scheduling, marks entry and result processing.

Finance and Accounts:

The academist finance software streamlines fee collection, payment processing, financial reporting, budget management and other accounting related functions, ensuring transparency and accuracy in financial operations.

Library

The academist library software maintains detailed records of the entire library book collection, automates book issue and return processes, updates book details, manage book purchase orders and provides valuable statistics on book usage.

Website

The institution maintains a website to disseminate information regarding its infrastructure, academic offerings and placement services to its stake holders.

ICT Infrastructure

The college has taken significant steps to enhance the learning and teaching experience by providing modern technology and infrastructure to its faculty and students. Projectors have been installed in classrooms. Entire college is wi-fi enabled. Labs are having sufficient numbers of computers with internet access.

Annual e-governance Report 2020-21

Administration:

All general administrative tasks are carried out with the help of Academist software. To handle general queries a Virtual office desk is implemented and hosted on the college website.

Student Admission and support:

The admission module is uploaded on the college website and students must apply for admission through the website. After admission confirmation further process is carried out using Academist software. During pandemic, the college implemented Google meet as college Learning Management System. Students have been provided e-manuals for accessing Google meet.

Examination:

All examination records are maintained in the Academist software. Due to pandemic examinations were conducted through google forms.

Finance and Accounts:

The college is using Academist software for accounting needs.

Library:

The library is regularly updated with the latest edition of reference books. Academist software is used to carry out routine tasks of library.

Website:

The institutional website has been updated on a regular basis to share information, academic offerings and placement services to its stakeholders. Online payment module is uploaded on the website.

ICT Infrastructure

To further strengthen the usage of ICT infrastructure, annual maintenance has been carried out.
